

Typical chemical and physical Properties

D'FOAM RIL 9L is a versatile defoamer for Textiles Processes such as Jet Dyeing, Scouring etc, beside going into coating related applications such as in paper coating, in synthetic latex emulsion for paints and adhesives.

A Blend of Mineral Oil, Fatty Acids , fatty acid esters & surfactants

PROPERTIES:

Appearance	Mildly hazy amber liquid
Active content	99.9 %
Solubility	- Soluble in Oil - Dispersible in water - Easily dispersible in latex paint and adhesive system.
Specific gravity	0.87 ± 0.02

Applications and typical treat level recommended

Textiles /Paints	0.2% to 0.5% of weight of foaming- media
Adhesives	1% - 2% of weight of latex solid

D'FOAM RIL 9L may also be distributed with an oil dilution system and or with a special metering system for automatic dosing in any system, which means product will be automatically added only when needed.

Benefits

D'FOAM RIL 9L is a 99.9% active product and performs tremendously in controlling foam generation & maintains flowability of the end product at desired levels (in applications such as Textiles & coating)

D'FOAM RIL 9L outperforms its silicone based peers due to its ability to withstand Extreme pH conditions hence we call it a UNIVERSAL DEFOAMER.
